HNS Inclement Weather Shelter Team

Will Gresham (Volunteer), Day Volunteer Coordinator
Doug Ashbaugh (Staff), Homeless Outreach Coordinator
Kevin Boyle (Volunteer), Shelter Program Developer

The House of Neighborly Service would like to offer an update on homeless day and night sheltering provisions in Loveland. This is a complex issue, and the solutions must be approached with care and community input. In the past two years, we have seen an increase in people needing emergency shelter. This is a problem much more prevalent than most realize. From January 2009 until December 2009, HNS received more than 300 homeless surveys and requests for emergency shelter. Most of these were not single adults living on the streets, but families with children who reside in our city and whose children attend our schools.

HNS has limited resources, but we reserve a small fund to place families with children in motels as they interact with Neighbor to Neighbor, Interfaith Hospitality Network, and the Loveland Housing Authority to find housing. Single adults who do not have a connection to Loveland are referred to the major shelters in Larimer and Boulder counties.

Our day center has 36 volunteers, the

night shelter 45 volunteers, with more than 70 volunteers providing the evening and morning meals throughout the week. Eleven churches host the rotating emergency night shelter and one has also provided a van to transport people from the day shelter to the night shelter. One HNS staff person works full time to coordinate the operations.

All guests are encouraged to walk six blocks to the Community Kitchen for a hot lunch. The day center is not equipped to provide meals. The Christ Church of the Rockies in downtown Loveland generously opens its doors and welcomes anyone to the "Front Porch" for fellowship, warm drinks and food. They also provide showers and a laundry facility.

While it is true nationwide that 1 in 4 homeless men are veterans, that doesn't seem the case in Loveland. One of the shelter coordinators is an experienced VA counselor and can act as an advocate for benefits. In addition, the Murphy Center in Fort Collins offers services that address physical and emotional needs, substance abuse issues, housing and job-related services are available under one roof. The Murphy Center is willing to drive to Loveland each week and transport anyone interested in their services and transport them back to Loveland.

There are many programs in Loveland that address substance and drug dependency and the guests of the shelters who struggle with those issues are encouraged to participate. Many of the people using our emergency shelter are clients of House of Neighborly Service and have been homeless for as many as 10 years.

Prior to the inclement weather shelters, HNS would refer homeless adults to one of the county facilities, unless they were connected to Loveland with a current job or medical need. *continued on page 2*

continued from page 1...Homeless Shelter

Typically, the shelters would fill up fast on these frigid nights and HNS would need to provide motel vouchers. The ongoing concern that is addressed by our emergency shelter is preventing serious health endangerment and possible death due to the elements, freeing up more motel vouchers for those with children. The city of Loveland is providing the day shelter building at no cost to HNS..

Homeless Gear is another community resource that specifically focuses on outdoor winter clothing, shoes and provisions and has been making monthly distributions to homeless at the day shelter and through the HNS Clothing Program.

The Colorado Homeless Coalition reports that 80 percent of the homeless across the country ask for work and a place to live, but what is actually provided at most shelters are a meal and a bed to use for the night.

Let's plan ahead. Let's continue working together to find true channels for restoration. We need to partner with existing programs that are serving the homeless and design a comprehensive model leading to self-sufficiency. We recognize that homelessness is not something we can control or end, but we do want to send the message to homeless people that they have the entire community behind them to help them get back on track.

It is only wise to design a program that is proactive while the homeless population is manageable.

HNS has been addressing emergency services, including emergency shelter, for 49 years in Loveland and Berthoud. Yes, we have seen a gradual increase of homelessness, and yes, this has been exacerbated by the economy.

We have received generous support from the city of Loveland, United Way, the faith community and many other groups and individuals. The House of Neighborly Service would be happy to hear ideas, input or resources that can help solidify and enhance our efforts to provide a safety net for those in need.

Glorie Magrum,
Executive Director

Staff Highlights

**Barbara
Williams**

It is always hard when one of our staff leaves HNS, because we really do become like family. We will be saying goodbye to one of our most treasured family members, Barbara Williams. Barbara, having been the bookkeeper for House of Neighborly

Service for fifteen years is retiring. Barbara has two grown children, a son who lives and works in Boulder and a daughter, who is a horse trainer in Texas. She has many interests that she will be pursuing once she has more free time. It is a bitter-sweet moment for all of us who must say goodbye, yet we are very excited for Barbara. From the bottom of our hearts we thank you for the many years of faithful and meticulous service you have provided for HNS. We love you and wish you all the best. Sincerely, HNS Staff, Board of Directors and Volunteers.

**Bente
Mikkelsen
James**

HNS has a new Assistant Director and we already know that she is going to be a great asset to our organization. Bente comes to us from a long history of leadership in the non-

profit arena. Her experience includes: Director of Communication for a relief organization working in the Middle East, Manager and Program Developer for a large homeless shelter in down town Chicago, fundraiser and grant writer for several organizations, advocating for low income clients, case management, and executive administrative experience. She has a Master's Degree of Engineering in Construction, and a Bachelor's Degree in Theology and Communication. Bente's husband, David, shares her passion in helping people and works for another of Loveland's great non-profit agencies - Neighbor to Neighbor. They have lived in Colorado for one year and are currently in the process of purchasing a home in Loveland. Bente loves cooking, crafts, sewing, reading and running. Bente joins our staff with awe at the increasing numbers of people who are come through our doors each day seeking assistance. We are so happy and blessed to have someone of her caliber and with her heart joining the HNS team.

Volunteer Point of View

Kevin Boyle

Kevin Boyle lives in Loveland with his wife, Mary. He has six grown children and eight grandchildren and enjoys reading, hiking and tackling challenging home improvement projects. Kevin is a retired teacher, counselor and

director of various human services programs. He has lived in Loveland since 1983 and is a volunteer at the local Salvation Army as well as serving as a volunteer caseworker once a week at HNS.

Kevin, who is one of the original coordinators of Loveland's night shelter, assists HNS in its new role of facilitating the day and night shelters that serve the resident homeless population in our community. Kevin has worked much of his life in the human services field, and has a special place in his heart for the homeless, so working one-on-one with the people who come in for help--whatever their needs--was a natural fit for him. Kevin has a great respect for every person who comes through the doors seeking help at HNS, whether they have fallen into crisis due to a job loss in a bad economy, are struggling with issues that make it difficult to keep their life situation stable, or are simply a low-income, working family having trouble making ends meet. He appreciates that there is an agency like HNS to provide help to families with basic necessities such as food and utilities that are easy to take for granted in better times. The positive atmosphere and spirit of cooperation between all of the staff and volunteers makes HNS a unique place to Kevin, and he appreciates being a part of it. After all, what would Loveland be like without a place like House of Neighborly Service?

Did you know?

...HNS now has gluten-free food baskets available for those with Celiac disease or other medical conditions that require people to avoid gluten, a protein found in wheat, barley and rye.

Featured needed items
